

Omkar Kale

Pune, Maharashtra

+91 8087451784 | omkarkale846@gmail.com | LinkedIn | GitHub | Portfolio

Education

B.Tech in CS & Design | Dr. D. Y. Patil Vidyapeeth, School of Sci. & Technology | CGPA: 9.8/10 2023 – 2027 (Expected)
MIT Junior College | HSC Science (PCMB) (75%) 2021 – 2023

Technical Skills

Languages	JavaScript (ES6+), Java (DSA)	Web Dev	React, Node, Express, MongoDB
AI/ML	TensorFlow, OpenCV, GenAI	Cloud & Tools	AWS (EC2, S3, RDS, Amplify), Git, Github

Projects

Aegis AI: Disaster Management & Resource Optimization | Node.js, React.js, MongoDB, Python

- **Developed** an AI-powered disaster response platform, achieving **~95%** triage accuracy and reducing coordination time by **~40%** by integrating automated SMS report processing and intelligent case routing.
- **Engineered** a full-stack resource optimization system for **10+ emergency stations**, ensuring uninterrupted coordination in low-connectivity areas by implementing an **offline-first PWA** architecture.

SaralMatch: Job Recommendation Engine | Node.js, React.js, MongoDB, Transformer Model

- **Architected** a full-stack AI job recommendation engine, increasing match relevance accuracy by **33%** by utilizing **Transformer-based semantic matching** against **120+ job attributes**.
- **Automated** data extraction processes across **10+ industries**, achieving a **100% reduction** in manual entry by integrating **Google GenAI** for intelligent real-time PDF resume parsing.

Experience

AI & Data Analytics Intern Jan. 2025 – Feb. 2025
Edunet Foundation (AICTE & Shell) Pune, Maharashtra

- **Constructed** a Computer Vision model using CNNs and Python to classify waste materials, directly supporting Green Tech initiatives by **mechanizing** sorting processes with **92% precision**.
- **Engineered** scalable data pipelines to process **10,000+ images**, enhancing predictive modeling accuracy and streamlining the deployment of machine learning solutions in production environments.

Front-End Development Intern June 2024 – July 2024
Edunet Foundation (AICTE) Pune, Maharashtra

- **Designed** responsive Single Page Applications (SPAs) using React.js and CSS3, optimizing DOM manipulation to ensure cross-browser compatibility and reduce page load latency by **30%**.
- **Refined** the Software Development Lifecycle (SDLC) by implementing reusable component architecture, cutting development time by **20%** while adhering to strict UI/UX guidelines.

Leadership & Achievements

National Winner (₹ 2,00,000 Prize) | VOIS Marathon 2.0 Oct. 2025

- **Emerged in the elite top 3%** of **1000+ competing teams** alongside **Team Legacy** in a national-level hackathon organized by VOIS, Vi, and Edunet, demonstrating rapid prototyping and advanced problem-solving.

President | Hackathon Club (DYPSSST) Sep. 2025 – Present

- **Spearheaded Hacksphere 1.0 (500+ teams)** and **SIH Internal Round (59+ teams)**, managing logistics while conducting mentorship sessions on winning strategies and pitch presentations.
